_____ **Buyer(s) please initial that you have read page 1 in detail.**

Terms:

BlackFoot pups are vet checked, microchipped, have dew claws removed at four days of age, are de-wormed and are given their first shots. All puppies undergo ENS, and are given socialization, love, and attention during their time with us. We believe that since we have chosen to bring our puppies into the world, it is our duty to provide the best we can for them. With this understanding in mind, we are now putting our trust in you to provide for their overall well being for the lifetime of the dog. *If at any time in the dog's life you can no longer care for him/her due to lifestyle changes, financial hardship, or other extenuating circumstances we agree to take back the dog into our care (AKC papers must be furnished and no financial refunds will be given).*

Only puppies found to have severe health issues verified by a certified DVM within 72 hours of receipt shall be given the option of a full refund. BlackFoot must be notified within that time of the full medical details/ defect as described by the veterinarian's office. We reserve the right to have the puppy re-examined by our veterinarian before agreeing to refund. Upon approval of the claim and return of the puppy (or veterinary proof of death), Breeder(s) will refund for the full purchase price. All charges (shipping or otherwise) associated with return of the puppy shall be furnished by the Buyer(s). No payment or partial payment will be offered without return of puppy or proof of death within 72 hours. No original shipping charges, health certificate charges, or other associated expenses will be reimbursed. All sections of this contract will be null and void upon return.

By signing this contract buyer agree to give breeders the right of first refusal if ever you wish to sell or re-home this puppy. Financial compensation for the return of this dog for any other reason than veterinarian proven *genetic health conditions* will be decided on a per-case basis pending the condition and training of the dog.

We do not guarantee: 1) The ultimate size or color of puppies at maturity. 2) Any scar tissue condition or bone condition resulting from dew claw removal. 3) Behavioral development after such time the puppies leave our care.

Genetic Health Guarantee:

We believe in the genetic soundness of our pups and offer a 26 month hip and elbow guarantee against dysplasia and degenerate joint disease. Buyer(s) will have until the pup's 26th month of age to provide official OFA findings of such genetic disease in order to receive compensation. Compensation for genetic hip or elbow defects is as follows:

1. Veterinary proof showing that the dog has been spayed/neutered (see 5*), or euthanized.
2. No compensation will be offered for dogs whose OFA results are returned dysplastic due to injury, lack of exercise, nutritional deficiency, or obesity.
3. BlackFoot™ Kennels reserves the right to have the dysplastic dog examined by our veterinarians before agreeing to release a new dog to the buyer(s).
4. NO GUARANTEE if the dog has been used for breeding (accidental or planned).
5. * NO GUARANTEE will be honored if a male puppy has been neutered prior to 12 months of age or if a female puppy has been spayed PRIOR TO her 1st heat cycle.

(Cont...)

6. Buyer(s) can pick a new pup of equal value from our next available litter of equal value to the pup's original purchase price. Financial compensation to or from the buyer will be adjusted of puppy from a litter of different value is chosen and agreed upon.

Medical conditions other than hip dysplasia or elbow DJD will be discussed per case.

Terms of our *LIMITED to FULL* AKC Registration process:

You puppy must carry the "BlackFoot" name at the beginning of its AKC registered name.
NO WARRANTY will be given to any dog who has not been registered with the AKC or who does not carry the BlackFoot name.

Puppies are sold with *limited* AKC registration papers to help ensure our pups are only added into responsible breeding programs. The puppy may be kept in-tact throughout his/her life regardless of your intent to breed. There are many reasons to keep a dog in-tact other than for breeding purposes; i.e. hormonal influences play a role in drive & body structure. We ask that you please take into consideration the tremendous numbers of un-wanted and euthanized dogs each year before breeding your dog. In order to improve the quality of our generations; before you breed please consider titling your dog in Sanctioned competitive venues.

We will pay for your AKC registration to be changed to FULL for breeding purposes only AFTER:

- The Dog is over 24 months of age.
- The Dog has NEVER been bred (accidental or purposefully).
- Proof of the following health certifications as posted on the official www.OFFA.org web site:
 - *OFA Hips (good or excellent)*
 - *OFA elbows (normal)*
 - *C.A.E.R. eye registration within a year (normal)*
- Not mandatory for your registration transfer from limited to Full, but these additional tests are required for your dog's CHIC certificate to meet the Labrador Club's official standards of health excellence:
 - *Test clear of the "D" (dilute gene)*
 - *EIC status*
 - *CNM status*
- Additional health tests recommended prior to breeding:
 - *OFA cardiac: Heart Echo (clear)*
 - *PRA (normal)*
